Company profile innovaphone AG

innovaphone AG

innovaphone develops pure IP telephone systems under the name of “innovaphone PBX“, uniting security and high availability with the flexibility and scalability of IP. The innovaphone PBX hardware comprises gateways and a series of IP telephones which are developed entirely in Germany and manufactured to a large extent in Europe. The entire product range is based on the unified hardware and software platform which is the core of the innovaphone product philosophy. The number of activated licenses can be determined as required which renders the solution suitable for companies of any size: from small companies over medium size companies with several branch offices to large enterprises. The innovaphone IP telephone systems are available exclusively through authorised distributors and resellers.

innovaphone AG has been playing a decisive role in the development of IP telephony ever since the company was founded in 1997. The company’s entrepreneurial spirit and development work are characterised by the emphasis placed on the guiding concepts of achieving long-term value, producing durable products, reliability and sustainability. The technology company with approximately 60 employees is financed entirely with private funds. Head office is located in Sindelfingen, South Germany. Further company locations include Hanover, Hagen and Berlin, with offices in Austria (Vienna) and Italy (Verona).
