Need for new communications

Hybrid work model

Mobility of agents

360° user experience

Limitations of Social Networks

- 1 Only one agent per channel
- 2 No distribution rules
- 3 No waiting messages or chatbots
- 4 A different UI for each channel
- 5 No statistics
- 6 No preconfigured automatic answers

All your communications in one place!

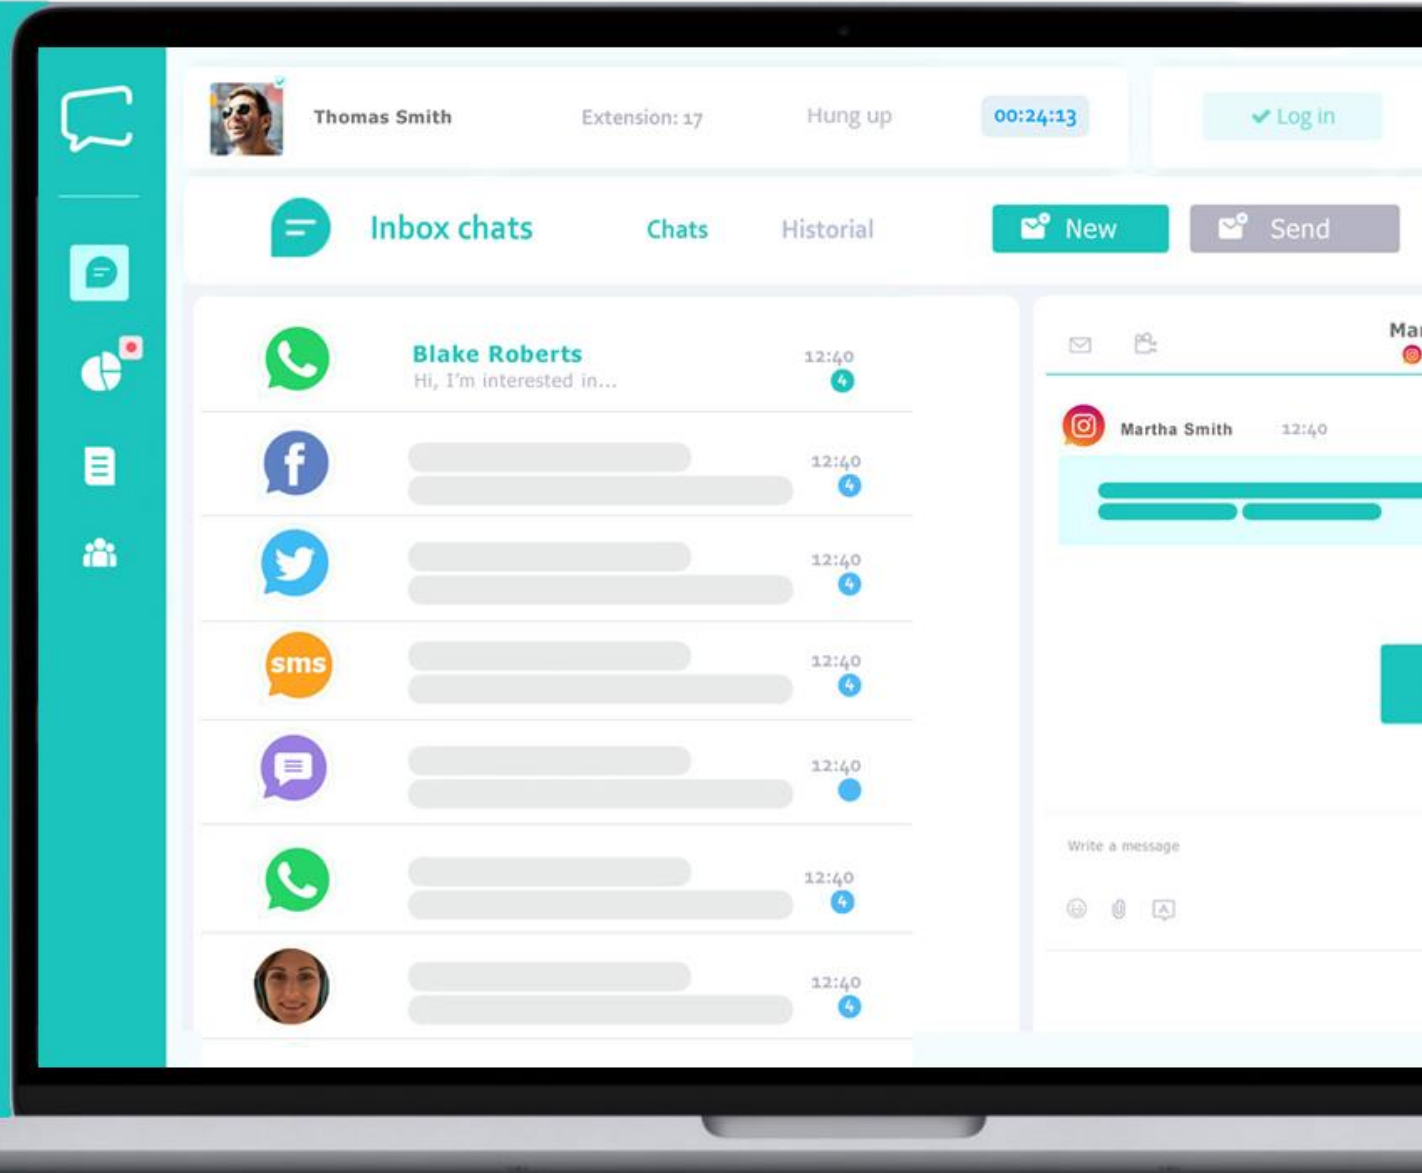

Agent module

It allows the agent to log in and out of the system, attend to messages and talk to customers via video call. It also allows the agent other functions such as pausing, resuming, consulting with other agents, and transferring messages.

Discover smart message distribution!

A photograph of two men in an office environment. The man on the left is Black, wearing glasses and a blue and white checkered shirt, sitting in a black office chair. The man on the right is white, wearing glasses and a grey long-sleeved shirt, also sitting in a black office chair. They are both smiling and fist-bumping each other. The background shows office shelves and a desk with papers.
