

innovaphone myApps Eco System for Special Solutions

Far away from mainstream and far more than IP telephony purely for the office. Cruise ships, on shore and off shore locations, hotels, hospitals or the manufacturing industry: innovaphone provides the suitable communications solutions for different branches & requirements – no matter the businesses size and irrespective of the location. All innovaphone solutions are available on premises and from the cloud.

- Are you looking for robust, weatherproof, shockproof and DNV-approved terminals for harsh & noisy environments?
- Would you like to connect innovaphone products to existing end devices & installations?
- Does your business require efficient monitoring and alarm scenarios with light call systems, external loudspeakers and integrated camera solutions?

Look no Further for the Suitable Components:

VoIP Gateways by innovaphone
